

PLAYING RULES

- Two man scramble format
- Both players tee off and select the best shot/ball where they would like to hit their 2nd shots
- Both players hit from the selected spot. The shot must be hit from within one club length of the selected ball no closer to the hole
- The chosen ball condition must be maintained for the shot (ie. bunker, rough, penalty area, or fringe).
- On the green, both players must putt from within one putter head (no closer to the hole) where the selected ball was marked on the green.

REVERSE MULLIGAN

- Each two man team has one (1) reverse mulligan to utilize for each 9 holes. The reverse mulligan forces one player on the other team to re-hit their shot.
- The reverse mulligan must be utilized immediately after the shot has occurred.
- A reverse mulligan may NOT be used on ANY shot that utilizes a putter.
- A reverse mulligan may not be carried over from the Front 9 to the Back 9. If one is not utilized on the front 9 holes, it is lost.

Double Up Power Ball

- Each team has one (1) Double Up Power Ball to utilize for each 9 holes.
- Teams must announce the use of the Double Up Power Ball on the tee block at the start of the hole before any shot is taken by any player.
- If the Double Up Power Ball is utilized, it doubles the value of the hole for the team utilizing it. The value of the hole remains unchanged for the opposing team.

Example 1:

Team announces utilization of the Double Up Power Ball and they are 1 DOWN in their matchup. The team wins the hole. They are now 1 UP in the matchup.

Example 2:

Team announces utilization of the Double Up Power Ball and they are 2 UP in their matchup. They lose the hole. The team is now 1 UP in their matchup.

- Two teams may utilize the Double Up Power Ball on the same hole if they wish.
- The Double Up Power Ball may NOT be carried over from the Front 9 to the Back 9. If one is not utilized on the Front 9 holes, it is lost.
- On the Back 9, the Double Up Power Ball MUST be utilized before the matchup is decided or closed out (ie. 3 up with 2 holes to play). Failure to utilize the Double Up Power Ball prior to match up close out will result in loss of the Double Up Power Ball for the Back 9 holes.

SCORING RULES

- Match Play scoring format
- Lowest two man scramble team score on each hole wins the hole.
- There are no carry over holes. The score remains the same if both teams tie a hole (ie. Team 1 stay 2 UP on Team 3 going into the next hole)
- Scoring is stopped once a team is up more holes than the number of holes that remain including the potential usage of Double Up Power Balls (see usage of Double Up Power Balls above).
- The winning team is awarded the number holes they are UP after the match has been decided.

Example 1 – team is 4 UP with 3 holes to play in their matchup. The winning team would earn 4 points for team. The remaining 3 holes would not count towards the scoring regardless of the outcome.

Example 2 – team is 2 UP with 1 hole to play in their matchup. The team would earn 2 points for the team. The remaining 1 hole would not count towards the scoring regardless of the outcome.

- The team with the most cumulative points at the completion of the tournament is deemed the winners of Irresponsible Gentlemen's Invitation and The Birdie Juice Cup.
